(3) In the case of an application for registration in respect of all the goods included in a class, or of a large variety of goods, the Registrar may refuse to accept the application unless he is satisfied that the specification is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered.

(4) Applications to register the same mark in different classes shall be treated as separated and distinct applications.

Regulation 2—Representation of Mark.

(1) Every application to register a trade mark shall contain a representation of the mark in the space provided for that purpose on the application form.
